

IN THE SPECIFICATION

Please amend the specification by replacing the paragraph beginning at p. 3, line 11 and extending through line 15 with the following:

“The system disclosed herein is comprised of a number of physical components. The physical components of the system of the current invention are the SMS devices [()], user devices [()] , hardware devices, and management servers. Most of the physical components of the system disclosed herein are programmed to function according to an iterative decision making methodology.”
